OCTOBER

Seasonal influenza update – Live Webcast

Oct. 3rd by 8:20 am

amms.oshean.org/content/DOH/PHGR-10-3-2013

Speaker Nicole E. Alexander-Scott, MD, MPH

Assistant Professor of Pediatrics and Medicine, Warren Alpert Medical School of Brown University; Medical Director, Division of Infectious Disease and Epidemiology
Rhode Island Department of Health

Target Audience Primary care providers (physicians and mid-level practitioners) and public health staff, especially health care planners and policy makers

Educational Objectives At the conclusion of this activity, attendees should be able to:

- Describe the current forecast for the 2013–14 influenza season
- Describe Rhode Island's surveillance and prevention goals for the 2013-2014 influenza season
- Describe specific recommendations of the Advisory Committee on Immunization Practices for the use of 2013-2014 seasonal influenza vaccines.

**Pediatric Global Health Conference – Focus on Haiti:
Building Local Capacities through Sustainable Partnerships**

Saturday, Oct. 12, 2013 (*all day*)

Alpert Medical School of Brown University
222 Richmond Street

This regional CME event for physicians, clinicians, nurses, allied professionals, residents and students is hosted by the Brown

University Global Health Initiative and Hasbro Children's Hospital. The conference will include a keynote address, lectures, panel discussions, and breakout sessions centered on significant pediatric global health issues including: building and sustaining international partnerships, millennium development goals, and the art of medicine in developing countries, with many of the breakout sessions focused specifically on Haiti.

Hasbro Children's Hospital is part of the St. Damien Collaborative to Improve Pediatrics in Haiti (SCIPH) a new consortium of six US-based Children's Hospitals dedicated to building capacity for pediatric care in Haiti at St. Damien Hospital for sick children. St. Damien is the premier pediatric hospital in Haiti, providing services free of charge, and is funded through donations from benefactors all over the world, primarily in Europe and the United States.

The conference will culminate in an evening benefit that will support both The Haitian Project and St. Damien Pediatric Hospital. [Conference Brochure](#)

Keynote speakers

Dr. Linda Arnold, current chairperson of the American Academy of Pediatrics Section on International Child Health, and Associate Professor of Pediatrics (Emergency Medicine) at Yale University, CT.

Dr. Jean Hugues Henrys, Dean of the University of Notre Dame d'Haiti, Faculty of Medicine and Health Sciences, Port-au-Prince, Haiti.

Contact Global Health Initiative: 401-863-1499

**Bridging Neurology & Psychiatry:
Movement Disorders**

Saturday, October 12, 2013

The Joseph B. Martin Conference Center
at Harvard Medical School
Boston, Massachusetts

This full day course is aimed at reviewing the interface between neurology and psychiatry to enhance the clinician's ability to recognize and classify movement disorders in psychiatric patients and psychiatric problems in movement disorder patients. Behavior problems are the major determinants of quality of life in Parkinson's disease yet they are often not recognized. Similarly, movement disorders caused by antipsychotics frequently go unrecognized.

World renowned experts in movement and psychiatric disorders will review drug-induced movement disorders, psychogenic movement disorders and movement disorders associated with primary psychiatric disorders.

This course is designed for neurologists, psychiatrists, primary care physicians, nurses, psychologists, pharmacists, physician assistants, social workers, medical students and fellows.

Click to download the Course Program.

1st International Carpometacarpal Workshop (ICMCW)

October 25–26, 2013

Hotel Viking, Newport, RI

Keynote Lectures

Matt Tocheri PhD, Smithsonian National Museum of Natural History, Washington, DC

Dr. Tocheri is a paleoanthropologist whose research interests focus on the evolutionary history and functional morphology of the human and great ape family, the Hominidae. His work on the wrist of *Homo floresiensis*, the so-called 'hobbits' of human evolution, received worldwide attention after it was published in 2007 in the journal *Science*.

David Felson MD, MPH, Boston University, Boston MA

Dr. Felson is a Professor of Medicine and Public Health, and Principal Investigator of the NIH-funded Boston University Multipurpose Arthritis and Musculoskeletal Diseases Center
