

joimax® Education Program

Dynamic 3-step-concept for learning the joimax® surgical techniques – education and supervision of the surgeon and the complete surgical team! With the CM3 Education Program you are given the opportunity to learn the surgical techniques in three steps (**1. visitation, 2. cadaver workshops, 3. first surgery**). In addition to the education and training of your complete surgical team, the joimax® holistic education concept also comprises the professional supervising of your first surgeries.

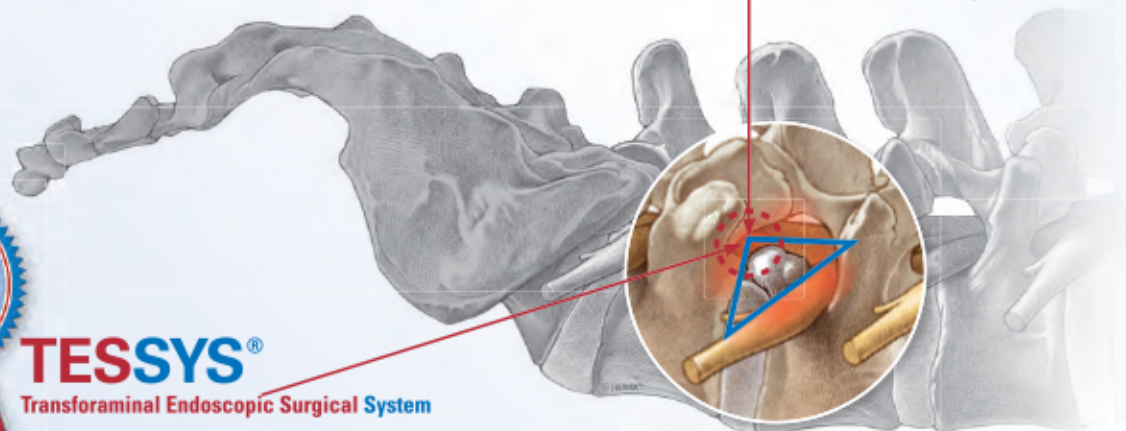

The joimax® techniques allows for the quick recovery of your patients. Get detailed information about workshops, visitations and detailed workshop dates online at www.joimaxusa.com and www.joimax.com.
