GUIDELINES FOR AUTHORS

Citations & References

Manuscripts
• Drafting the work or revising it critically for important intellectual content; AND
• Final approval of the version to be published; AND
• Agreement to be accountable for all aspects of the work in ensuring that questions related to the accuracy or integrity of any part of the work are appropriately investigated and resolved.

The RIMJ standard is to list the first eight authors, followed by et al. The specific contributions of additional collaborators can be noted in an acknowledgment.

Abstracts
An abstract of 150 words or less should accompany each scientific manuscript. The abstract summarizes the main points of an article: (1) the study objective or background, (2) the study design and methods, (3) primary results, and (4) principal conclusions.

Keywords
Provide three to five keywords to describe the essential subject(s) of your article.

Footnotes
Footnotes should be avoided within the text. Such explanatory material can usually be incorporated into the text parenthetically. RIMJ does not use footnotes.

Citations & References

Limit to 20. References should be cited in numerical order in the text and arranged at the end of the article in the order they are cited. All references should be cited as superscripts within the manuscript. Place superscript numbers outside periods and commas and inside colons and semi-colons.

Example: Currently, more than 1.1 million people are living with HIV/AIDS in the United States alone, of which a CDC-database modeling estimated 3,730 to 4,061 live in Rhode Island.1

A complete print journal reference includes the following:
• Last name of author, first initial followed by comma and then additional authors
• Title of article (or book and chapter title)
• Abbreviated name of journal (Abbreviate and italicize names of journals according to the listing in the PubMed Journals database.)
• Year of publication, followed by Volume number and Issue number:
• Page numbers

B. Graphs or charts: Provide as separate Microsoft Word files. Consider that figures may be published at 3 or 4 inches in width. Fonts and details must be legible when reduced to that size. Recommended for clarity are sans serif fonts, such as Calibri or Arial.

C. Legends: Figure legends should be provided individually as Microsoft Word documents.

Biographical information
Biographical information for each contributing author must accompany the manuscript submission. This information must include name, title, and institutional/academic affiliation for each author.

Correspondence
Include the name, title, and current position of the principal author with mailing address, telephone, fax, and e-mail address.

Acknowledgment
Include research or project support/funding by individuals, organizations or institutions in an acknowledgment.

Disclaimer
A disclaimer is used to separate the views of the authors from those of employers, funding agencies, organizations, or others.

Example: The views expressed herein are those of the authors and do not necessarily reflect the views of the US Army or the Department of Defense.

Financial disclosure
All authors will need to complete a RIMJ financial disclosure form, available here. It can be filled out electronically or copied and scanned.

Electronic submission
All submissions are to be by electronic copy. Microsoft Word documents are preferred. Corresponding authors should e-mail copies of the complete article and accompanying material to the Co-Editors-in-Chief and Managing Editor.
